

JACKIE CHAN

Kung fu's silly man on, American stuntmen

Are American stuntmen wimps?

No, the American stuntmen are smart,
because they always think about safety.

When they do a jump in a car, they calculate everything- the speed, the distance.

They're very good. But in Hong Kong, we don't seem to know how to count. Everything we do is a guess. There is no math. All my stuntmen have gotten hurt at some point.

I say, "Do it! Rolling camera, action, jump!"
Boom! Ambulance! Hospital!

Next stuntman!!
